Chairman Rep. Edmond Soliday,
Vice-Chairman Rep. Ethan Manning,
Ranking Member Rep. Matt Pierce, and Members of the Committee
200 W. Washington Street,
Indianapolis, IN, 46204

Dear Chairman Rep. Edmond Soliday, Vice-Chairman Rep. Ethan Manning, Ranking Member Rep. Matt Pierce, and Members of the Committee,

I am writing to you on behalf of 86 organizations and companies in opposition to House Bill 1420, which would not only increase costs for consumers, but which would also be unconstitutional. It claims to promote free markets and competition but instead concentrates more power in the hands of incumbent monopoly utilities. HB1420 is anti-competitive, and it will cost households and businesses money. Granting this monopoly power would lead to high inflationary electricity costs for consumers for decades to come.

Where competition has been allowed to occur nationwide, transmission competition has been shown to lower costs by as much as 30%, which would save consumers money each month on their utility bills. Studies have verified similar findings.¹ In a climate of record inflation, driven in large part by spiraling electricity costs, we cannot afford to turn our backs on competition. A partial approach to competition will not drive down overall transmission costs as construction is only one component in providing lower electricity costs. Indiana must embrace a comprehensive competition policy that lowers the rates consumers pay, while increasing innovation, and powering a robust economy for Indiana.²

We urge you to reject HB1420. Stand up for consumers and not the monopoly power of the incumbent electricity utility.

Thank you for protecting consumers in the State of Indiana from higher costs.

Sincerely,

Paul N. Cicio

Paul N. Cicio
